Skaggs School of Pharmacy at the University of Montana is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. Programs listed in this booklet have been approved for knowledge-based ACPE continuing education credit as indicated. Individual program descriptions include the amount of credit offered and the universal activity number. Statements of Credit will be mailed to participants within 4 weeks, upon successful completion of the verification of continuing education signature sheet and program evaluation form. No partial credit.

Montana Pharmacy Association

Winter CE +

Ski Meeting

January 13 - 15, 2012

Big Sky, Montana

Program Overview

The 2012 Winter Continuing Education Conference, held in beautiful Big Sky, Montana, will offer a total of 12.25 CE hours for pharmacists and technicians attending all 3 meeting days. The program sessions will include topics relevant to various pharmacy practice settings including hospital, ambulatory care, and retail. Clinical Pharmacist experts will speak on topics including HIV/AIDS, hypertension, anticoagulation, pain management and antimicrobial utilization. Additionally, updates on drug diversion, the Montana Prescription Drug Registry Program, auditing, and profit improvement strategies will also be included in the program. The conference will conclude with a review of state and national issues affecting the profession of Pharmacy.

Each year generous participants sponsor students and technicians to attend this educational and networking opportunity. To provide a donation for others to participate in the Winter CE meeting, please indicate your preference on the registration form.

Enjoy skiing at the world-renowned Big Sky Resort or take advantage of the many other local activities while sharpening practice skills, enhancing business strategies, networking, and connecting with friends.

Technicians can receive credit for all courses approved for pharmacists.

Friday, January 13, 2012

Pharmacy and HIV: What Pharmacists Need To Know

Gary Meyers, RPh, PharmD, AAHIVE Clinical Pharmacy Coordinator, Rapid City Regional Hospital, Family Medicine Residency, Rapid City, SD

OBJECTIVES: At the conclusion of the presentation, participants should be able to:

1. Recognize the clinical manifestations of primary HIV.
2. Understand the importance of strict adherence to HIV therapy and the relation to HIV resistance.
3. Identify common opportunistic infections and treatment options.

Saturday, January 14, 2012

Hypertension - Management, Education, and the Role of the Pharmacist

Katherine S. Hale, PharmD, BCPS Assistant Professor of Pharmacy Practice, UM Skaggs School of Pharmacy, Missoula, MT

OBJECTIVES: At the conclusion of the presentation, participants should be able to:

1. Describe the role of the pharmacist in the prevention, education, and management of hypertension.
2. Identify core elements of hypertension self-management education programs in the pharmacy practice setting.
3. Identify state resources related to hypertension management and education.
4. Describe pharmacologic and non-pharmacologic treatment recommendations for patients with hypertension using appropriate guidelines (e.g. JNC 7).
5. Discuss how to select the most appropriate blood pressure cuff for your patient.
6. Demonstrate appropriate technique for measurement of blood pressure.

Changes in Anticoagulant Therapy

Ann K. Wittkowsky, PharmD, CACP, FASHP, FCCP
 Director, Anticoagulation Services, University of Washington Medical Center, Clinical Professor, University of Washington School of Pharmacy, Seattle, WA

OBJECTIVES: At the conclusion of the presentation, participants should be able to:

1. Compare warfarin to new oral anticoagulants for stroke prevention in AF and treatment and prevention of VTE.
2. Compare pharmacokinetic and pharmacodynamic characteristics of new anticoagulants.
3. Summarize advantages and possible disadvantages of new oral anticoagulants.
4. Identify patient management issues posed by the availability of new oral anticoagulants.

Prescription Drug Diversion

Dean Chrestenson, Detective, Missoula Police Department, Investigations Division, Missoula, MT

OBJECTIVES: At the conclusion of the presentation, participants should be able to:

1. Accurately define drug diversion.
2. Identify two main reasons leading to diversion.
3. Describe methods to prevent and reduce the diversion problem.

Collaborative Practice in Pain Management: Balancing the Benefits and Risks of Opiate Medications

Lee Ann Bradley, PharmD, BCPS, CPP Clinical Coordinator, Montana Spine and Pain Center at St. Patrick Hospital; Clinical Professor, University of Montana School of Pharmacy, Missoula, MT

OBJECTIVES: At the conclusion of the presentation, participants should be able to:

1. Accurately define addiction, withdrawal, tolerance, and aberrant behavior in the context of chronic pain.
2. Identify strategies to maximize the potential benefits while minimizing the risks associated with opiate medications.
3. Identify potential challenges and opportunities for pharmacists to help keep opiate medications safe.

The Montana Prescription Drug Registry

Starla Blank, PharmD Network Pharmacist, Mid-America Service Solutions, VHA, Inc.; Montana Attorney General's Prescription Drug Abuse Task Force, Member, Helena, MT

OBJECTIVES: At the conclusion of the presentation, participants should be able to:

1. List the authorized users and authorized agents who are eligible for electronic access to the Prescription Drug Registry.
2. Complete the steps necessary to obtain access to the on-line version of the Prescription Drug Registry.
3. Given a potential drug abuse scenario, determine a strategy for intervention.

Sunday, January 15, 2012

Auditing Prevention Tips and the Technician's Role

Matt Mallinson, RPh Matt's Medicine Store, Independence, MO

OBJECTIVES: At the conclusion of the presentation, participants should be able to:

1. List eight potential auditable areas per Rx.
2. Name three responsibilities of the Technician in preventing a prescription's audit.
3. Identify necessary support information to prevent a loss.

Profit Stealers – How Low Can You Go?

Matt Mallinson, RPh Matt's Medicine Store, Independence, MO

OBJECTIVES: At the conclusion of the presentation, participants should be able to:

1. Determine a store's estimated cost to fill a prescription.
2. Identify at least 6 profit stealers in a store.
3. Complete steps to correct issues leading to profit loss.
4. Evaluate the profitability of a third party contract.

Antimicrobial Utilization: Caring for Patients and Preserving the Public Health

David B. Wright, BS, PharmD Pharmacy Implementation Manager, Pharmacy Performance Services, VHA Inc., Plymouth, MI; Professor of Pharmacy, Eugene Applebaum College of Pharmacy and Health Sciences, Wayne State University, Detroit, MI

OBJECTIVES: At the conclusion of the presentation, participants should be able to:

1. Define proven strategies for the implementation of a successful antimicrobial stewardship program.
2. Describe the relationship between inappropriate antimicrobial use and microbiologic pathogens.
3. Discuss how to overcome potential barriers for successful antimicrobial stewardship program implementation.

Current Law and Practice Issues in the State & Nation

Corey Heffernan, PharmD Chair MPA, Walgreens, Hamilton, MT

Tony King, PharmD Chair MPA Legislative/Policy Committee, Walgreens, Missoula, MT

Stuart Doggett Executive Director, MPA, Helena, MT

OBJECTIVES: At the conclusion of the presentation, participants should be able to:

1. List two legislative initiatives that MPA passed during the 2011 legislature.
2. Identify one recent change to Administrative Rule passed by the Montana Board of Pharmacy.
3. Identify one primary federal initiative being worked on by national pharmacy representatives.
