- Rehearse de-escalation techniques
- Actively participate in sensitivity experiences
- Recognizing sexual behaviors, triggers and methods to redirect
- Meaningful activities for elders
- Review brain images and see physiological changes

## Who should attend?

All healthcare professionals & frontline staff who work in the healthcare industry. Family & friends of individuals with dementia.

## Speaker Biography:

**Pamela Longmire, RT, BAS, CDP, PAC**  
**Quality Improvement Specialist**  
**Healthcare Consultant**

*Pamela is the Lead Nursing Home Quality Improvement Specialist in Montana. She has over 30 years' experience in health care.*

*Her qualifications include being a certified Positive Approach to Care trainer, Certified Dementia Practitioner and a Certified Alzheimer's Disease and Dementia Care Trainer®. Pamela combines her training and experience with validation methods to bring internationally recognized skills to those providing care in Montana.*

*Pamela's passion is improving the lives of residents living in care homes as well as those receiving home based care. Her training success is attributed to her keeping current in education; researching established innovative methods from all over the world and hands-on teaching of best practices. Pamela's trainings and effective tools assist care-partners in delivering high quality, person-centered care. Having lost her father to dementia, Pamela has a strong personal interest in connecting with individuals with this challenge. She is an avid proponent of culture change, educating and empowering staff, quality improvement and sustainability.*
